The Space Stylist

A class-leading sense of ease

A breakthrough vehicle should be innovative to the core. You'll find that the new City is a unique car from its distinct sharp styling to its astonishing inner space. Get in, stretch out, and discover the pleasure of extra leg room, headroom, and roomy distance between front and rear passengers. You'll be amazed by a new dimension of space that allows all occupants to relax in comfort. What's more, the interior is designed for all-around freedom, with a high-performance air conditioner and superb cabin quietness. Think of the cabin as a relaxing lounge with open freedom and a feeling of security. It cools the body and soothes the spirit.

Quick-cooling air conditioner

Hot outside? The new City air conditioner quickly brings cabin temperature down to comfortable levels. Additional air conditioner ports on the rear seat floor — a class-surpassing feature — keep everybody comfortable.
